

Admin Dashboard Guide

Admin Analytics - Step-by-Step

1) Dashboard purpose

Admin dashboard provides live analytics and monitoring across all requests.

2) Access

1. Login with role ADMIN.
2. Navigate to /admin.
3. Review real-time cards and distribution panels.

3) Analytics cards

- Total Requests
- Pending (PARALLEL_REVIEW)
- Completed (COMPLETED)
- Halted (HALTED)

4) Distribution panels

- Requests per City
- Requests per Client

5) Operational usage

- Use admin panel for management reporting.
- Validate trend shifts across cities/clients.
- Cross-check unusual halted spikes with RH/Payment actions.
